

CapRoc

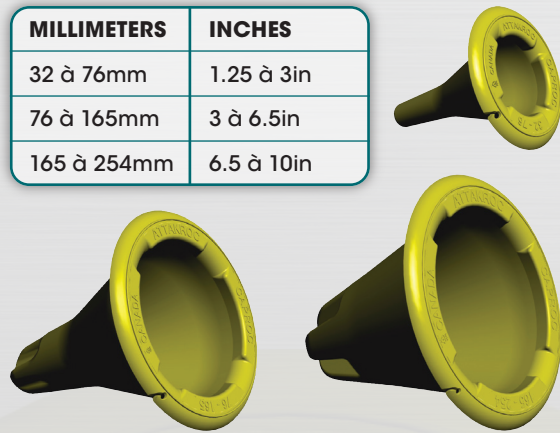

Optimize your Drilling and Blasting operations

CAPROC products, developed by ATTAKROC, offer a complete line of durable caps that are designed for the protection of the drilling holes or for the optimization of the fragmentation of the rock during blasting activities.

Designed to cover diameters from 1.25 to 10 inches with only 3 sizes.

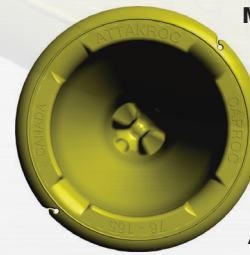

Reduce your inventory with the multiple angle design.

MILLIMETERS	INCHES
32 à 76mm	1.25 à 3in
76 à 165mm	3 à 6.5in
165 à 254mm	6.5 à 10in
